

## WHAT

## WOULD

## HAPPEN?

if schools had unlimited access to FREE state-of-the-art conflict resolution training?

## WE'RE ABOUT TO FIND OUT

### Introducing School Tools

**The Western Justice Center's new resource website for conflict resolution education.**

**School Tools makes conflict resolution training available free to educators 24 hours a day.**

School Tools is an interactive resource website for educators who are working to prevent and manage conflict on campus. The site provides high quality materials and interactive training modules that teach the skills students need to resolve conflicts effectively.

Teachers can access lessons and find first-rate resources on a variety of topics.

The site content is enhanced with original videos (created by our own team of educators and filmmakers) for a more engaging and interactive learning experience.

School Tools is currently available in English to anyone with internet access.
